## NEWS ITEMS OF INTEREST.

**Missionary Chamberlain of India** writes that a Hindu fraud is in the United States collecting money, ostensibly for missionary purposes.

Eastern Siberia has been suffering from a famine, no whales or other fish have visited those waters this summer. At Injun Point, all but one man out of two hundred inhabitants perished.

St. Mark's Episcopal church in Islip, L. I., is undergoing repairs, having been bought by a Roman Catholic society. It has been discovered that \$30 put into the corner stone on the 4th of July, 1847, has been stolen.

The merchants of St. Louis have organized a movement for the erection of a permanent exposition building like those of Chicago, Louisville and Cincinnati. It is intended to finish it for next Fall.

It is said that Lord Rosebury won about \$100,000 in the fourth week of October, on the turf, and Sir Beaumont \$30,000. A young guardsman scored \$10,000 on La Merville, and lost it the same evening on cards.

The Earl of Aberdeen has a distinction unique among earls—he is the sole owner of a railway, the entire cost of which came out of his own pocket. It is ten miles in length, runs chiefly on his own property, and cost \$275,000.

A certain amount of salary is safe against creditors to a married man in Florida. In order to take advantage of this law, a St. John's River steamboat captain hastily married a woman to whom he had previously been a stranger.

Lulu the admirable scroob, who originally came before the world some years ago as a girl, is now playing under the same manager, Farini, at the Westminster Aquarium, London, as a man and with great success. He has a beautiful figure and rather effeminate features.

Although the Maories in New Zealand are for the most part peaceable subjects of Queen Victoria, in many cases wealthy, and filling places of trust, they are reported to be decreasing in numbers; the deaths exceed the births. This is ascribed to the change in their mode of life in a great many instances.

Every year France acquires new strength as a military power. The number of drilled men steadily grows up to a vast total. The fortifications of Paris are being pushed to a circumference that will make investment impossible and bombament vain, and the eastern frontier is strengthened at every available point by new works.

On a hill near Ware, Hertfordshire, a pillar has been erected to mark the spot where, in June, 1875, Thomas Clarkson resolved to devote himself to the abolition of slavery. Miss Merivale, daughter of the Dean of Ely, last month unveiled this memorial, and her father told how, forty years ago, Clarkson told him about his famous resolve on that very spot.

"You are all alone here!" asked a man of the clerk in a Cincinnati cigar store. Receiving an affirmative answer, he continued: "What would you do if a thief should grab this box and run away?" The clerk replied that he would let the rascal escape rather than abandon the money drawer to possible raid. "Then I'll be going," the man finally remarked, as he tucked the box under his arm and hastily departed.

## A Truthful Tale of the Telephone.

This is the latest telephone story. A proud grandmother, who has only just been promoted to the honors of that happy relationship, is awakened in the dead of the night by the inextinguishable bell. "Mamma dear," comes to her the frightened voice of her beloved but inexperienced daughter. "I am sure baby has the croup. What shall I do with it?" Grandmother replies that she will call the family doctor and be with her anxious daughter in a moment. She awakens the doctor, and tells him the terrible news she has learned from her daughter. He in his turn requests to be put in telephone communication with the too anxious mamma. "Lift the child to the telephone and let me hear it cough," he commands. The child is lifted, and it coughs. "That's not the croup he declares; and he declines to leave his house on such small matters. He advises Grandmother also to stay in bed; and all anxiety quieted, the trio settle down happy for the night.

## Border Life in Texas.

From the Courier-Journal.  
At Paris, Texas, Wm. Pitts went to a festival of colored people. Walking into the middle of the hall, and in the midst of the crowd, he pulled his pistol and fired it off, the bullet going through the roof. Another quiet looking white man walked up and said: "You ought not to act that way." Pitts replied: "Take it back, or I'll d—n you, I will kill you." "I don't take it back," replied the stranger. The yahoo then fired, hitting him in the right shoulder. The stranger then drew a sharp bowie knife and made for Pitts. The women shrieked, and negroes seized the stranger; but he broke loose, and getting at Pitts, slashed him across the throat and both cheeks in two besides cutting him in the abdomen. Pitts is reported dying.

The best and most reliable place to buy Pianos and Organs is at C. C. Hastings, Virginia street, Reno, Nev.

## The Mad Freak of an Operator.

A crazy telegraph operator at Torch, Ohio, at the close of a night's debauch jumped upon a locomotive which was attached to four coal-hoppers, and started at the rate of twenty-five miles an hour. He ran down the road about five miles when he met the passenger train coming west. Into this he ran at full speed, wrecking both locomotives and throwing them, with the baggage car, off the track. The passenger cars fortunately kept the track, and no one was injured. The engineer and fireman of the passenger train both jumped off the engine when they were almost together, and escaped serious injury. The locomotive was found lying upon his back in the wreck, somewhat injured but not seriously.

## A Man who Lives in the Mud.

The south has a disgusting specimen of "greatest living curiosity" bearing the respectable name of Edmund French. He is black, and he sleeps in the mud, and literally lives in the mud, like a pig, buried up to the neck when he can get the delightful opportunity. During all the extreme cold of last winter he remained in his mud bed, with the water frozen on top all about him. He says when he ran away from his master and took to the swamps to escape the bloodhounds he was compelled to remain there over winter, and the mud kept him from freezing and cured him of disease, so he has lived in mud-holes ever since. As a sanitarium it beats blue glass.

## Suicide.

A distinguished scientist once said: "No man with a strong and healthy stomach ever committed suicide; and yet many are suffering the tortures of the damned with dyspepsia, when a single bottle of Dr. Merivale's English Dandelion Liver and Bile Beans will give relief, and, if persisted in, will cure the worst case of this distressing trouble. This pill cures Torpid Liver and Bile Beans, regulates the bowels, removes pimples from the face, cures sallow complexion, foul breath, sick headache, heartburn, pain in the sides and back; is sugar-coated, and guaranteed to be PURELY VEGETABLE. It acts directly on the coating of the stomach and on the liver; can be taken in any climate—wet or dry weather. Beware of imitations. The genuine has an engraving of a lion on the outside wrapper. Price 50 cents. For sale by Osburn & Shoemaker, druggists."

## THE DAILY

# GAZETTE!

## The Cheapest Paper in Nevada!

Is the largest daily on the Pacific railroads, and contains more home news than any paper in the State. To any one who is interested in stock raising, agricultural pursuits, or mining in western Nevada, the Evening Gazette would be worth thrice the money. The Gazette will be in the future, as in the past, devoted to spreading information of the resources of Washoe county first, and of the whole great interior basin next. Its mineral wealth, agricultural possibilities and manufacturing capacity are almost unknown and furnish matter for the live journalist, second to no part of this coast.

## THE CITIZENS DUTY.

The terrible accident (for so it might reasonably be called) of Sunday night is the outgrowth of the system of vagrancy in which a large proportion of the floating population is found. The unhappy lady, before whose pistol Mr. Oakes fell, doubtless believed him to be of the same kind, if not of the same gang, that has committed so many burglaries and robberies of late, and of whom she probably had the morbid and exaggerated fear so common in women. If she had been accustomed, as all women should be, to the use of the pistol, sufficient at least to defend their lives or honor, she would have waited until the man broke in the door or made some hostile demonstration; but she was nearly as much afraid of the pistol as she was of the man, and between the two she was nearly beside herself. The great need of the strict enforcement of the law against vagrancy, is made very emphatic by this event. There should be a constant watch kept for such men as have no means of support and they should be put at work by the county. This is not in the line of the duty for the officers of the town alone. District Attorney Bowman stands ready to prosecute any such cases as there is evidence against but he cannot make the evidence. Some one must stand up to the rack and swear to the facts, and until the citizens do their share the officers can do but little. The citizens of Reno owe it to their wives and daughters to protect them from the danger of attacks from desperadoes, and it is a shame that a woman should be afraid to walk the streets alone after dark.

## A GENEROUS MAN.

R. S. Lacey writes to the GAZETTE from Washington, D. C.

Dear Sir:—We beg to submit the proposition to furnish you a weekly letter in exchange for the insertion of our "ads," as per copy enclosed. We will endeavor to give you, at all times an able "Special Correspondence," without outlay of money to you, covering the pith of Congressional proceedings and matters of public interest pertaining to social and political affairs at the national capital. There is every promise that the approaching session of Congress will be an intensely interesting and important one, and we will put its doings in attractive form for your columns. If our proposition is accepted, please fill up the enclosed blank, and mail us weekly a copy of your paper for our files. The same letter will not be sent to any other paper circulating in your vicinity. The "ads." would make about a half a column, for which Mr. Lacey offers us such a lot of trash as we would not give a place in our columns, even if it did not appear in fifty other papers simultaneously. We respectfully decline. We have plenty of better matter.

## IF THEY WOULD.

The Silver State.—"If the people would divest themselves of party prejudices during the ensuing session of Congress, and make up their minds to support the men who advocate measures that are calculated to restore peace, prosperity and harmony to the whole Union; ultra-partisans might learn something, and devote to necessary legislation the time which they now expend in making buncombe speeches on dead issues. If they would, but of course they won't. They will be led by the nose by scruffy politicians who have fish to fry, and buncombe editors who would fry them for fish. They will go wild in their fight for men who don't care a straw for them or their welfare, and pour out money to win for their side, regardless of right or the public good."

Referring to the *Sentinel's* nomination for senator, the *Enterprise* says: "There is not an office in the gift of the people of Nevada nor any other State, nor all the States combined, which Mr. Mackay would accept if it were tendered him by acclamation."

The New York papers are full of "Grant's support in the South." It is thought that the South would go solid for him, in order to break up sectionalism.

## EDITORIAL NOTES.

All women and some men love flattery, that is to say appreciation. We confess to a feeling of pleasure in seeing our efforts to make a good paper for Reno recognized both at home and abroad. Among several pleasant notices we clip this from the *Bulletin*:

The Reno GAZETTE has done a new dress. The GAZETTE is one of the brightest and most newsworthy of Nevada exchanges.

And this from the *Eureka Sentinel*: The Reno GAZETTE appears in a brand new suit, and has added many improvements to its office. The GAZETTE is among the best local papers in the state, and we are pleased to record this evidence of its prosperity.

The San Francisco doctor who bet that he could eat a quail and a pigeon every day for thirty consecutive days, has won his wager. There are plenty of men on this side of the mountains who are perfectly willing to bet that they can do the same thing, if the birds are paid for.

It is generally believed that Mr. Mackay, at least, and probably Mr. Fair wants to get out of the Comstock, and leave the state. Mr. Mackay says there is not money enough in California to handle the mines. If a bonanza is opened in the north end the stocks will be taken to New York.

The *Paradise Reporter* credits the description of Alkali Lake to the *Enterprise*. The *Reveille* gives the *Chronicle* the bridal party and potato story. Both originated in the GAZETTE.

Great excitement exists in Maine, owing to rumors that the governor and Democratic state officers intend to throw out the Republican votes and give certificates to Democrats.

The Nevada Tri-Weekly *Herald* has entered upon its fourth volume, and maintains its reputation as a good local paper.

Bribery is charged against a New York merchant and an employee of the Custom House.

## STATE NEWS.

The Carson Reform Club boasts of a billiard table.

Paradise is booming. Several new discoveries are reported.

The *Tuscarora Times-Review* is increasing its circulation.

Two of John Guthrie's rams got to butting and kept it up until one of great value was killed.

Sinking on the Ohio mine at Rebel Creek, Humboldt county, is going forward. The ore coming out is richer than ever.

The Gold Hill *News* says the Comstock is infested with sharpshooters who want to sell bogus watches the "dying present of a father," etc.

H. Stanley of Suto, has a copper medal given the volunteers of New York during the Mexican war. It was found by an Indian near Pyramid Lake.

The Independence-Navajo mill is at work on ore from the Navajo mine. About the first of next month a test will be made at this mill of Argenta ore.—*Times-Review*.

Wells, Fargo & Co.'s Express from Tuscarora, will hereafter be sent to the railroad by the way of Elko. A buck board will be run on the Battle Mountain road for the present.

## THE MINTS.

What they did in 1878-79.

The report of the Director of the Mint is an important document. It covers the financial year ending June 30, 1879, and is thus summarized:

During the year the total deposits of gold and silver, including silver purchases, amounted to \$71,179,654, of which \$42,284,156 were gold and \$28,895,497 silver. Of the above amounts \$38,549,905 of gold and \$26,934,728 of silver were of domestic production, \$198,083 of gold and \$106,770 of silver were of United States coin; \$3,069,796 of gold and \$1,073,919 of silver were of foreign bullion, \$14,881,971 of gold and \$898,632 of silver were of foreign coin, \$897,751 of gold and \$208,609 of silver were of plate and other manufactured articles. The coinage during the year amounts to \$78,312,592, and consists of 2,759,421 pieces of gold of the value of \$40,986,912, and 27,238,830 pieces of silver, of the nominal value of \$37,325,680, and of minor coins 9,680,250 pieces of the nominal value of \$67,690.

The silver coinage has been almost exclusively of standard silver dollars of which \$37,297,500 were coined during the year, and the total coinage to November 1, 1879, has been \$65,206,200. The total amount of subsidiary coin issued since the passage of the resumption act is \$42,984,981. The full amount coined was \$45,944,931, but \$1,020,000 in dimes was retained in pieces of larger denomination at the mint at San Francisco. Bars manufactured, fine and imported, amount to \$28,022,614, of which \$12,976,812 were gold, and \$9,045,802 silver. Total amount of gold bars, \$12,976,812. Total amount of silver bars, \$9,045,802.

It is reported from the McCloud fisheries that the river is full of a large run of salmon fresh from the sea, and they are discussing whether it is safe to remain there.

J. Burke met with a sudden and shocking death at Res's mill, a short distance above Forest Hill, Placer Co., last Tuesday. He and another man went out into the yard to roll a log on the ways, and the log starting before they were quite ready, caught Mr. Burke, and rolling over him, crushed him nearly flat, particularly his head and trunk, causing instant death.

## Fisher Deserves Hanging.

A distressing accident occurred on Lewis river, Washington Territory last Friday, resulting in the almost instant death of Mrs. Andrew Millard. It seems that a young man named Fisher, a relative of the family, was engaged in cleaning out a shot gun, and, supposing the gun was unloaded, Fisher began to amuse himself by snapping caps at Mrs. Millard and a young lady named Miss Birt, who was visiting at the house. Both women begged Fisher to desist, which he declined to do, thinking it funny to frighten them. While so engaged the weapon was discharged, the full load took effect in the body of Mrs. Millard, killing her instantly.

## JEWELRY

\$75.00 worth for \$15.00.  
Solid Abyssinian Gold Watch  
FREE! FREE! FREE!!!  
The above offer is genuine, although at first  
sight you would consider it impossible. It is  
not a trick. Since we first established our  
business here, March 1st, 1878, we have paid  
particular attention to the buying of fine  
Jewelry and Auction lots of Jewelry and Watches  
often buying at as low as one-tenth their  
value, and to no instance have we paid over  
one-sixth the manufacturers' price. Since  
starting we have always been able to dispose  
of the goods that we buy in the most  
regular customers throughout the country at  
nearly regular prices, as far as we could pre-  
pare them, but owing to the large number of  
customers among the heaviest dealers and man-  
ufacturers throughout this and other coun-  
tries during the months of June, July and  
August (the time when the jewelry business  
is stagnant), we have now on hand an im-  
mense stock of the most desirable goods we  
have ever handled, and which we have bought  
at lower prices than ever before. In order to  
dispose of this entire stock in the most  
expedient manner possible, and make room for  
new ones which we shall continue to buy, we  
have in view the following novel plan:  
We propose to give you a list of the most  
desirable of these goods, giving opposite each  
article its regular value, and will sell to you  
at the rate of Five Dollars' worth for \$1.  
For instance, on receipt of \$5.00, we will send  
you \$25.00; on receipt of \$10.00, we will send  
you \$50.00; on receipt of \$15.00, we will send  
you \$75.00; and so on throughout the entire list.  
Now we give a list of the most valuable of  
these goods:

Read What the Chicago Press says of Us,  
And Send in Four Orders.  
The Sentinel of Chicago, Sept. 9, says:  
"We call the attention of the Inventors' Agency,  
No. 116 E. Washington street, Chicago, what  
the Inventors' Agency says of the watch we  
sell. The Sentinel has advertised for the  
concern since its first publication and we have yet  
to hear of the first complaint against it."  
The Chicago Express, Sept. 3, says:  
"The attention of readers is called to the adver-  
tisement of 'The Inventors' Agency' office, a  
room located at 116 Washington St., Chicago.  
From personal inquiry and on the recommen-  
dation of the city press, we think our friends  
do no better when wanting goods in that  
line. Give them a trial."  
The American Freeman, Sept. 11, says:  
"We believe this institution perfectly sound  
and responsible, and consequently persons  
need have no hesitation about sending for  
what they desire."

the following firms: Bloomer & Co., 10 &

Messrs. James S. Taylor & Co., 116 Front

your Champagne Baking Powder, and with-  
out hesitation we pronounce it perfection.  
No reasonable person could ask for a better  
powder. Use as directed and it never fails-  
only one Teaspoonful to a quart of Flour.

OFFICE OF THOMAS PRICE,  
Sacramento Street,  
SAN FRANCISCO, May 24, 1879.  
Messrs. J. S. Taylor & Co.-GENTS: I  
have made a careful examination of bread  
and biscuits prepared under my own direction  
by the use of your Champagne Baking Pow-  
der, and find that they do not contain alum or  
any other injurious or deleterious ingredients.  
Respectfully submitted,

INTERNATIONAL HOTEL,  
VIRGINIA, N.Y., Sept. 13, 1879.  
Messrs. James S. Taylor & Co., 116  
Front St., San Francisco.-GENTS: I can  
make better results with one teaspoonful of  
your Champagne Baking Powder than with  
three teaspoonfuls of any other I have ever  
used. If there is a yeast powder anywhere in  
the world equal to it, I have not seen it. As a  
baker I pronounce this powder simply perfect.
